

NORTHWEST2045

The NorthWest2045 project has been established by a diverse group of local organisations with a common desire to see our communities thrive economically, socially, and environmentally. We believe creating a collective, long-term vision for the future will give voice to the desires and needs of the people of the North West Highlands and help us work together to make our aspirations reality. Over recent weeks we've engaged widely across the area through interviews and surveys to hear what local people want for the area, now and in the long-term.

Join us at online workshops to hear what residents have been telling and where will discuss:

- Hopes for the future of the North West Highlands
- Key opportunities for developing a more thriving future
- What action might we take to make our vision a reality

Everyone of all ages is invited to come and take part in the discussion
